## A LITTLE MORE ABOUT ME

My name is Dan, and I own and operate Elevated Memories. I started my wedding cinematography company in 2019, taking more than a decade of experience in travel films and transitioning to capturing the emotion of couples on their wedding day. I've been lucky enough to work with dozens of incredible people, and win several "best of wedding" and "couple's choice" awards along the way.

My style is a mix of cinematic and organic storytelling that gives life to your wedding day for years to come. While capturing one of the biggest days of your life is essential, so is going unnoticed and allowing those special moments to happen without the lingering presence of a camera. My goal is to be able to make a film that has impeccable quality as well as capture the essence of your day without becoming a part of it. I want the memory of your wedding day to be of the love, joy, and happiness you've experienced by marrying the person you love and celebrating with your favorite people... not your videographer directing your every move.

## Tried & True

The **Tried & True** package is so named because it works great for each couple that's booked it time and time again. 8 hours is typically sufficient to cover the ceremony and reception formalities with time on either end to capture getting ready, the finer details, and partying! With the big parts of your day captured, the 3-4 min highlight film is perfect for retelling the story of your love for one another. I've learned over the years that in order for me to really tell that story, I need to employ this **Tried & True** method at a minimum. With **Tried & True** as the baseline, you can then elect to completely customize your wedding package using any of the suggested pairings above and/or a la carte options below to ensure you get everything you want from hiring a videographer (e.g., longer film, full ceremony edit, reception formalities edit, or additional hours).

### Always included in every package

- Wedding film set to music with audio overlay (speeches, ceremony, letter reading)
- One dedicated, qualified, and professional videographer
- Online video gallery for easy viewing and download (Google Drive)
- Multiple 4K cameras & audio, angles, and styles (gimbal, monopod, time lapse, etc.)
- Drone footage (weather and laws permitting)
